

Victoria Harbour

VICTORIA Harbour is one of the world's most spectacular harbours. It lies between Kowloon Peninsula and Hong Kong Island. The beautiful **coastline** (海岸線) and the **skyline** (地平線) create an amazing view.

Since the early 1840s, Victoria Harbour has **impacted** (影響) the **economic** (經濟的) and social (社會的) success of Hong Kong. However, due to

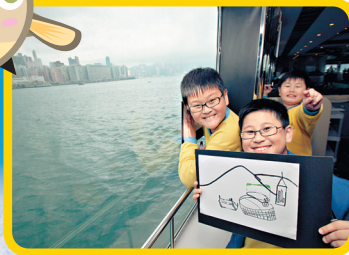

reclamation projects and other factors, the Victoria Harbour is facing a pollution problem.

The Environmental Protection Department has tried to treat the **sewage** (污水) around the harbour. Now, 75 percent of the sewage around the Victoria Harbour receives treatment. However, this is still a problematic issue and we must all learn to love and **protect** (保護) our harbour!

Your view

THE recent "My Harbour" Design Competition was co-organised by the Harbour Business Forum, the Hong Kong Arts Centre and the Hong Kong Institute of Aesthetic Education. The competition's aim was to educate people and increase their awareness of Victoria Harbour. Please check <http://www.myharbour.hk> for more details.
