Rare breeds

Save butterflies, save the world. Some butterflies are facing extinction.

What does extinction mean?

It means the end of a type of **organism**. Extinct animals are ones that do not **exist** anymore.

The rules

Remember the following rules when visiting the countryside:

- No littering
- Avoid walking on the grass
- Do not start a fire
- Do not catch butterflies
- Do not pick flowers

Facing extinction

According to Matthew Sin Kar-wah (單家驊) from Green Power (綠色力量), land developers have their eyes on Tai Po Yuen Tun Ha (大埔元墩下) so that they can build property on it. Yuen Tun Ha is a famous butterfly **habitat**. Many rare butterflies can be found in the area. Sin has **urged** concerned parties not to further damage the beautiful environment.

Vocabulary

extinction (n) 絕種
