Goodies

A despicable family

A NEW *Despicable Me* movie has come! You can see Gru and his minions on the big screen again, along with a new character: Gru's brother Dru. What fun adventures will they go on this time?

Editor's Note

Hi! I love riding on cable cars. The first one I ever rode on was the one at Ocean Park. Since then I have been on other cable car rides including the one near Mount Fuji in Japan and the one in London that crosses the river. I have been on Ngong Ping 360 many times and it is one of the best because you get to see the natural beauty of Lantau Island. Once you reach Ngong Ping Village you can climb up steps to see the Big Buddha. I never tried the cabins with the see-through floor, though. It is too scary for me to look down from high above; even just thinking about it makes my legs turn to jelly! Turn to G06 to read about the cable car rides being re-opened for the public.

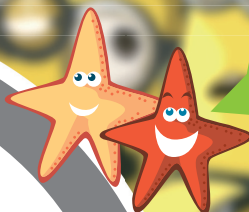

Simon

I like Gru; he's naughty like me.

NOW married and with a family, Gru wants nothing more than to be a good husband and father. But his younger brother Dru arrives and changes all those plans. People say that for every pair of twins, there is a good twin and an evil twin. Gru used to be the evil twin, but he turned good. So does that mean his twin brother Dru has to turn evil?

Are we going to pretend to be minions again?

We must not commit burglary!

To be good or to be loyal

A FORMER child star, Balthazar Bratt, has stolen a famous huge diamond, but Dru wants that diamond, too. Dru asks for Gru's help and Gru faces an **impossible** decision – help his brother and commit a crime, or stay good and lose his brother.

Bad guys turning good

IN stories, there are many people who are bad, but become good in the end. For example, Shrek from the *Shrek* movies is an **ogre**. In fairytales, ogres are evil monsters. Shrek, however, saves Princess Fiona from trouble. In the end, everyone sees him as a lovable **curmudgeon**.

Good outlaws

ONE famous **outlaw** is Robin Hood. In the legend, he lives in a forest with his Merry Men. They rob the rich and give to the poor. In the past, Robin disagreed with King John, who then **banished** him from the kingdom. Robin also fights with the local **authorities**, led by the Sheriff of Nottingham.
