Goodies

English on YouTube

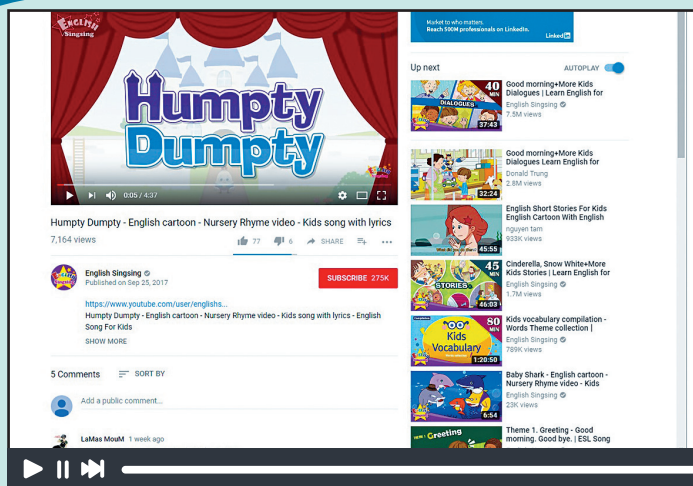

THERE are many ways to learn English outside the classroom. You can read books and newspapers like *Goodies*. You can also watch videos! There are some videos for young students on the internet. They are fun to watch, and they can help improve your English too!

Editor's Note

Hi! I bet many of you go on YouTube to watch videos about *Minecraft* or watch *Peppa Pig* cartoons. But I find YouTube is great for learning English because you get to hear native English speakers talk. You can find lots of storytellers reading famous books out loud. Kid vloggers are fun to watch too. On page 10, Rose recommends checking out videos from a popular kid vlogger and also gives some other great tips. You need to enjoy learning English, but do not spend too much time in front of a computer. Get out more and talk to people in English!

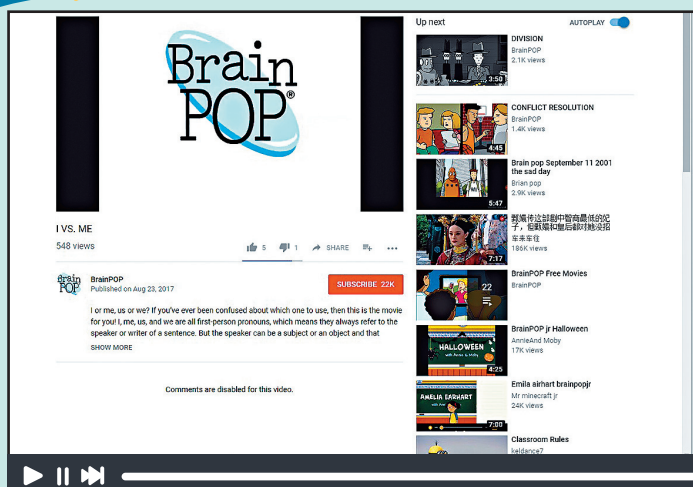

Simon

English in songs

NURSERY rhymes are a great way to learn English. They are simple songs that are easy to remember. This video **channel**, English Singing, makes cartoons for nursery rhymes and stories. You can follow the videos and learn how to speak English naturally.

G TIPS

Read and watch

SOME videos have **subtitles**. You can watch the video and read the subtitles at the same time. Can you find a 'CC' button at the bottom of a YouTube video? If the video has subtitles, they will show up when you click the button.

Stay safe on the internet

THERE are many good videos on YouTube, but there are bad videos too. It is important that you visit the internet with your parents or teacher.
