## A magical horse puppet?

**T**HE award-winning play *War Horse* is coming to Hong Kong! Unlike most other plays, the main character for this one is a horse as the story is told through his experiences. Moreover, the horse and the other animal characters are all played by puppets! Turn to G06-G07 to learn more about this interesting play.

Is this a drama or a puppet show?

Why can it not be both?
